U. S. Chamber of Commerce Reports All but Peaches Will Be Plentiful.

HEAT PRICES UNCHANGED

Supply of Butter and Eggs Increasing on Local Market-Potatoes 40 Cents a Peck.

That the 1916 fruit crop in the United States is one of the largest in recent years, with the exception of peaches, is the substance of a report of a committee of the Chamber of Commerce of the United States. The committee further reports that prices for the fruits will be favorable to farmers.

Dry weather in the South and low temperatures in middle seaboard states have killed many fruits and vegetables and delayed the harvest season. The situation is felt on Washington markets, where prices still are high for this time of year.

Prophesy Marine Preferred Advance

There were several tips prophesying a big advance in Marine preferred yesterday. One source declared that the stock would sell at par shortly, and another believed that 150 would be reached on the present rise.

BONDS FIRM ON LOCAL EXCHANGE

Washington Gas Shows Renewed Strength on Inactive Day for Stocks.

OTHER FINANCIAL NEWS

Liquidation of American Securities in Europe Reflected by Action of New York List.

The inactivity of stocks continued at yesterday's session of the local exchange, with bonds firm and in good demand. Washington Gas showed excellent strength at 76 1/2 bid and 76 3/4 asked. One sale was made at 77. Mergenthaler sold in two 10-share lots at 161 and 160 1/2, respectively. Green Cannanea reflected the weakness of the New York quotation.

In the bond list, Potomac consolidated \$5 sold at 100 5/8; American Graphophone \$5 at 100; Railway \$5 at 80 5/8, and Norfolk and Washington Steamboat \$5 at 100. A market was found for virtually all offerings.

Fear of renewed liquidation of American securities held abroad was reflected in the action of the New York list, according to the professional view expressed in a summary made public by W. B. Hibbs & Co., of this city, as follows:

"The list backed and filled without displaying a definite tendency. A selling movement ensued during the last half hour, as a consequence of reports credited with connections in London that an additional income tax will be levied on the securities which the British ambassador is willing to purchase. The object was said to force the sale to the government of additional American securities which had been owned."

"The influence of the foregoing would doubtless be to cause a resumption of liquidation of American shares. The recent advance in international issues suggested that foreign selling had subsided for the time being, so that a renewal of the same would doubtless have a depressing influence on stock market sentiment. Standard copper continues to be quoted lower daily in London, and recent efforts to inject new life into copper shares have not been attended by much success. The Iron Age reported some reduction in steel prices."

"A rather more two-sided market may be expected. We believe that the industrial should be liquidated and rails substituted therefor on the downturns."
